MD BELAL ASHRAF

Civil Engineering Student | QA/QC | Construction Management & Project Execution

New Delhi, India | belalashraf687@gmail.com | +91 7481014674 | LinkedIn: [https://www.linkedin.com/in/md-belal-ashraf/]

PROFESSIONAL SUMMARY

B.Tech. Civil Engineering student (Jamia Millia Islamia, New Delhi) with hands-on experience in QA/QC, GFC drawing interpretation, batching plant calibration, and quantity surveying gained across DLF Limited (real estate execution), ONGC (industrial infrastructure), and IIT Delhi (environmental research). Seeking opportunities in Construction Management, Project Controls & Planning, and Quantity Surveying.

EDUCATION

B.Tech. in Civil Engineering | *Jamia Millia Islamia, New Delhi* 2024 – 2028 (Expected)

Currently in 3rd year

INDUSTRY EXPERIENCE

Projects Department Intern | *DLF Limited — DLF Data Center-03, Sector 143A, Noida* 2026

- Verified reinforcement against STR GFC drawings — column layouts, beam details, PT beam duct placements, and MEP cut-outs; inspected steel grades Fe250–Fe550 for PT beams, columns, shear walls, DG raft, and slabs.
- Reviewed batching plant calibration and concrete mix designs (W/C ratio, mix proportions); performed cube testing and tracked Non-Conformance Reports (NCRs) to closure.
- Inspected formwork, VDF floor levelling, PT pocket grouting, plaster quality, and curing; reviewed Work Inspection Requests (WIRs) and GFC drawing documentation.
- Monitored site execution through construction of the 6th to 7th floor level.

Engineering Services (Civil) Intern | *ONGC Ankleshwar Asset — CPF Gandhar Electrical Office Building* 2026

- Prepared BOQ and measurement sheets for 90+ work items using CPWD SOR and project-specific Rate Analysis, quantifying 177.54 cum excavation, 455.73 cum RCC M25, and 2,500+ sqm of finishes.
- Conducted deviation analysis comparing estimated vs. tendered rates across multiple RAs; verified Rate Analysis against site measurement records.
- Applied IS Code protocols (IS 456, IS 10262, IS 3495, IS 1786) for material testing; reviewed NDT reports against project specifications.
- Interpreted ARCH & STR GFC drawings for planning and execution sequencing; monitored formwork, PCC/RCC concreting, and reinforcement activities.

MEPF Intern | *Comfort Design & Building Services* 2025

- Trained in MEPF (Mechanical, Electrical, Plumbing, Firefighting) systems coordination with civil and structural frameworks.
- Studied clash detection, MEP shaft planning, and coordination drawings for large-scale construction projects.

RESEARCH

Performance Analysis of an Algal – Bacterial Consortium (ABC) Bioreactor system for Nutrient Remediation in the Yamuna River | *IIT Delhi, Changemakers Summer Bootcamp (under Prof. Jay Dhariwal & Prof. Anushree Malik)* 2025

- Designed a zero-aeration Algal-Bacterial Consortium (ABC) photobioreactor for nutrient removal from Yamuna River water — an energy-efficient alternative to conventional activated sludge treatment.
- Achieved 96.5% nitrate reduction (41.46 → 1.46 ppm), 86.1% phosphate reduction (4.09 → 0.57 ppm), and 32.4% TDS reduction within 48 hours; results met WHO drinking water standards for nitrate within 24 hours.
- Quantified nutrient concentrations via UV-VIS spectrophotometry (calibration curves $R^2 > 0.99$); estimated 40–60% energy savings vs. conventional treatment.
- Selected for IIT Delhi Open House 2025 Makerspace Exhibition, presenting to 300+ attendees; work featured in The Indian Express.

LEADERSHIP

Campus Ambassador, BECon'26 | *Entrepreneurship Development Cell (eDC), IIT Delhi* 2026

- Ranked among top Campus Ambassadors for IIT Delhi's Business & Entrepreneurship Conclave; ran cross-platform campaigns (LinkedIn, Instagram, WhatsApp) that grew engagement and event footfall.
- Received Letter of Recommendation citing "excellent networking and publicity skills."

Team Lead, Aqua Nova Project | *IIT Delhi Changemakers Program* 2025

- Co-led a 6-member team on the Yamuna pollution research and exhibition project; delegated tasks and managed timelines.
- Quantified 5,300% phosphate excess in the Yamuna using CPCB data; presented findings to 300+ attendees.

ACHIEVEMENTS

- Featured Innovator, The Indian Express (2025) — coverage of the Aqua Nova wastewater remediation project.
- Letter of Recommendation, ONGC (2026) — cited technical maturity "rarely observed in undergraduate trainees."
- Internship Certificate, DLF Limited (2026) — cited "high degree of enthusiasm & caliber."
- Letter of Appreciation, IIT Delhi Open House 2025 — Prof. Jay Dhariwal, Faculty In-Charge, Makerspace.

CERTIFICATIONS & MEMBERSHIPS

- AutoCAD 2020 2D Basics & Advanced — Udemy (2025)
- MEPF Internship Program — Comfort Design & Building Services (2025)
- Industrial Training (Civil Infrastructure) — ONGC Ankleshwar Asset (2026)
- Changemakers Summer Bootcamp — IIT Delhi (2025), selected from 106 applicants nationwide
- Student Member, American Society of Civil Engineers (S.M. ASCE) — 2025–Present

SKILLS

Estimation & Costing: BOQ Preparation, Rate Analysis, Deviation Analysis, CPWD SOR, Quantity Estimation, Cost Control, Tender Analysis

Quality Assurance: IS Code Compliance, Material Testing, NDT Review, NCR Tracking, WIR Review, Batching Plant Calibration, Mix Design Verification

Structural Engineering: GFC Drawing Interpretation, Reinforcement Detailing & Inspection, PT Beam Inspection, Column Schedules, Shear Wall Schedules

Site Execution: Formwork Inspection, PCC/RCC Concreting, Reinforcement Placement, Site Monitoring
